Mr. Foley Remembered the Widow and Orphan of Peterborough.

Mrs. Almira Gray, widow of an old-time Peterborough merchant, the late James Foley, says the Toronto Evening News, died yesterday in Toronto. Mrs. Foley had only removed to Toronto a short time before her death, and had no personal property, valued at \$800.00, the left in the shape of a mortgage on 21 different persons who will live. At her decease the estate was to go to the benefit of all deceased widows and orphans who have been bona fide residents of the county of Peterborough.

The acts of him have decided to attack the will. They are scattered widely, but would all share in the estate if the will was set aside. J. E. Bird applied in Chancery to have two of the next of kin appointed as plaintiffs to set aside the will and all the other claimants.

Hard on the Fairs.

The Great Western fair of London was at one time an institution. So was the Hamilton show, and our own Little Lincoln fair has had some pompous in it. But the Hamilton exhibition has been the last of the "Great" London show was a failure this year with a large deficit, and our own little fair showed a natural death. It is time these advertising humbugs were done away with. There are newspapers enough in the country to meet the wants of those who have goods to sell.—St. Catharines Star.

## POLICE OF THE HEAP.

And we mean to stay there. We've got the goods and we make the prices.

Two years ago in opening our store in Belleville, we promised the people a great revolution in the price of clothing, and that this promise has been fulfilled.

We have only to refer you to the drop in prices our competitors have been compelled to make in order to do us, and the great public should patronize us. But, apart from this there are still greater reasons why you should buy your clothing from us, and the greatest of them is that we will save you money.

Even our competitors acknowledge that we regulate the prices, and they would give much to have us out of Belleville, but we came to stay, and just as long as the public give us their kind and liberal patronage we mean to stay. Naturally you will ask how can we sell cheaper than other houses? Our answer is, because we are the largest stock buyers in Canada, and consequently the lowest buyers. Then again, being the largest buyers, this same fact can be proven, we must naturally be the largest sellers, and it requires no mathematical calculation to know that a live firm makes infinitely more money by turning a ten cent piece over ten times than a slow merchant makes by turning a quarter dollar over twice, therefore it is a matter of course that we should be able to sell cheaper than any other house in Belleville, and we do sell cheap is evidenced from the fact that in every instance our competitors have been compelled to lower their prices in order to do us business at all. This fall we will surpass all previous efforts in the wholesale and retail trade in Belleville. Never in the history of our trade, never during our fifteen years in business have we been able to place before our customers such an enormous stock at such marvellously low prices. We have bought the entire stock of probably the wealthiest and largest manufacturer in Canada at 67 cents on wholesale cost, known we are in a position to discount the price of any dealer because we bought our goods at 40% less than cost to produce them, and this justifies us in making the bold assertion that our prices will not nor cannot be touched.

IN OUR MEN'S DEPARTMENT we commence suits at \$3.75, worth double the price wholesale. Overcoats for \$3.00, cheap at \$5.

IN OUR BOYS' DEPARTMENT we commence suits for \$1 and Overcoats at \$1.50. They are beautiful too.

IN OUR HAT AND CAP DEPARTMENT we will simply astound you, and in Shirts and Drawers we will sell you at less than mill prices.

Buyers, study your own interests by patronizing Gough. Don't be deceived by other dealers who follow him in advertising to sell cheap. They are not in one better position to day to sell you cheap than before we opened here, and why they do not do it then. They are not in it, and besides they have not got half our stock to select from. We thank our numerous customers for their liberal patronage in the past and we assure them we will always be on deck to look after their interests in future. Remember yourselves. Consult your own pockets and you won't forget us this fall. Mothers are particularly requested to look at our children's clothing. Our two big casualties are in our prices, reliable goods.

There is commotion among liquor dealers in Kingston. Both the Whig and the News claim that a telephone message was yesterday received from that city stating that the two whiskey informers who have been doing well lately, were operating in Kingston. The supposed detective was shadowed and turned out to be strangers. What made the liquor dealers positive was that the description of the man sent from Belleville tallied with that of the strangers. Inspector Glidden said the liquor men were mistaken. There were no whiskey informers in the city.

THE WHISKY INFORMERS.  
A Big Kick Back.

It is well known through the press that a number of informers have been laid against hotel keepers and others in the city for supplying liquor to the police. It is now understood that two complaints have been made against White and Chadwick, the informers. The first for obtaining liquor during prohibited hours. The second for inducing hotel keepers to commit an offence against the law. The penalty in the first offence, if proven, is equal to that which would come to the informers if their case was proven against the hotel keepers, and the penalty in the second offence, if proven, is two years imprisonment. It is understood that the two complaints will be followed by two similar charges against each of the other who have been laid, making 24 complaints in all which will have to be disposed of, after which there is a more serious charge awaiting them, the charge of conspiracy, after which they may have to stand the charge of being accessory in each offence in which the other have been charged with. We understand that the defendants in the liquor cases will resist to the last, and that the police will stand by them. It would appear as if the way of the aver-

# Scott's Emulsion

of Cod Liver Oil and Hypophosphites  
is both a food and a remedy. It is  
as useful as a fat producer and at the  
same time gives vital force to the  
body. It is beneficial in

**CONSUMPTION**  
because it makes fat and gives strength.  
It is beneficial for

**SICKLY CHILDREN**  
because they can assimilate it when  
they cannot assimilate food.

**COUGHS AND COLDS**  
because it soothes the inflamed  
membrane and builds up the system  
and overcomes the difficulty.

**CAUTION.**—Beware of cheap imitations.  
The name "Scott's Emulsion" is prominent  
on the wrapper, and the picture of a man  
carrying a large fish on his back is on the  
label.

**BELOW THE BELLY, OCT. 19**  
AN URBAN LENSING.

If the "valiant" bowler, who have been  
deprecating Canada and extolling the  
neighboring Republic, in order to make a point  
against the tariff policy of the Government,  
could be transported to the chief cities of  
the United States and compelled to narrate  
the truth, they would give a most satis-  
fying contradiction to their previous utter-  
ances.

The contrast is in all respects in favor of  
Canada. Here we have stable banking in-  
stitutions, unshaken confidence in business  
enterprises, and undiminished activity in the  
various industries. The reverse of this is  
true in the United States, and particularly  
in New York city, the great heart of the  
country's commerce and industry. So  
averse is the depression there that not less  
than two hundred thousand workers are  
out of employment.

The condition of the unemployed in this  
great army of unemployed is very pitiable,  
and with the advent of winter it must  
become desperate. A few days ago a  
respectable man was arrested there for  
stealing food, and when arraigned at a  
police court stated that as he could not  
secure employment and had no money he  
sold, in order to prevent his children  
from starving. The magistrate, it may be  
said, discharged him from custody. The  
alleged return of confidence has not as yet  
assumed large proportions, and  
does not seem likely to materialize  
in the near future, owing to  
the inaction of the Senate on the tariff  
question, and for every vacant situation  
there are at least forty, and in some cases  
hundreds, of applicants.

The lesson for Canadians in these facts is  
to maintain the principles of our tariff  
policy, contenting ourselves with such  
modest alterations as experience has shown  
to be in the interest of our people.

**EDITORIAL BRIEVES.**  
Judge Falconbridge is one who does not  
conceal his disgust at the conduct of the  
people who go to law over trifles. While the  
case of *Lalor vs. Lout* was being tried at  
the London assizes the defendant gave evi-  
dence, and the Judge remarked:—"Suppose  
this old lady, who is 85 years of age, was  
asking what you considered a little too  
much, do you think I would have been  
just as well to have given it to her. It was  
only the use of a couple acres of land at  
best for a short time." To this the  
defendant did not reply. The judge then  
inquired of the plaintiff, "What do you  
think of this?" "A little father in his  
in his evidence it was shown that a settle-  
ment had not been made, because he was  
about to quit what would practically  
amount to about \$1.25 per acre. On  
this coming out, his Lordship said very  
sympathetically: "Then it appears that this  
suit has been brought in the High Court of  
Justice over a dispute which amounts to  
about \$1.25 per acre, the cost of which  
will be at least \$100 to each side. It is  
shameful! Shameful!"

This was the rather handsome tribute  
Mr. Gladstone paid to his political oppo-  
nents in the House of Lords: "With re-  
spect to very many of them, I have a very  
high respect for their personal characters.  
For the abilities, for the claims of their  
action, and above all for the loyal position  
they occupy, and for the admirable manner  
in which they labor, often devoting a very  
large part of their lives to the discharge  
of immediate personal duties, to those im-  
mediate portions of the community which  
they live. I have not a word to say  
in derogation of the claims to my admi-  
ration and respect, which they deserve per-  
sonally, from anyone such as this. Mr.  
Gladstone and the Unionist and Liberal  
opponents are not in line on this question."

Hamilton Herald (Independent): It is a  
curious notion some of the politicians are  
afforded to have that the protective tariff is  
driving the young men out of Canada.  
They have a protective tariff in the States  
—a higher tariff than we have in Canada—  
and young men are not driven away by it,  
and they have free trade in England, yet  
not a day passes that young men do not  
come to Canada or the States to capture  
the valuable dollar. The fact of the matter  
is, that young men are going and settling  
wherever they can get a good living, and  
not on the basis of the tariff.

No other complaint equal: Millard's  
Cod Liver Oil Emulsion in pleasant taste,  
morning or evening or as a tonic.

GET FURNISH THE HARMONY IN THINOR ESSENTIAL—HARMONY IN THINOR NOT ESSENTIAL—HARMONY IN THINOR

BELLEVILLE ONTARIO TUE DAY, OCT. 17, 1893

Belleville Intelligencer.

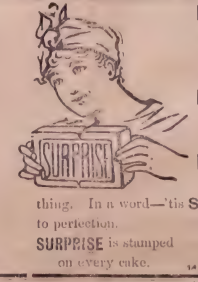

Not a Very Encouraging Prospect.

The Times has recently published figures showing the great advance made by the Dominion of Canada under the protective policy of the Government. Now that the crisis has made the destruction of this policy, and the substitution in its stead of a modification of British Free trade, the whole plank in their new platform, it is not surprising to find that the latter policy on the people of Great Britain. In the first place everyone must admit that the maintenance of a new country like Canada have nothing to hope for from free trade. If any class is to be benefited, it must be the farmers, and it is obvious, therefore, that a careful study of the conditions of agriculture in the principal or we may say the only free trade country in the world will help us to judge of the probable effect of such measure in this country. If the farmers have not prospered it may be taken for granted that the measure have not been materially advanced. Going back twenty years we find that in 1873 there were fewer than 200,000 farmers in England and Wales alone than there are at the present day. That is to say, one of every five men who in 1873 worked upon and lived by the land has gone from it. This fact of itself is a sufficient answer to the question "Is free trade likely to benefit our farmers?" Again in 1873 the average acreage of wheat was 3,400,380; at present it is 1,897,485 or a decrease of 1,502,895 acres in twenty years. In 1873 the barley crop covered 3,325,913 acres; at present the area covered is only 2,076,097 acres, a decrease of 2,249,816 acres in the same period. The area of oats, indeed, has been increased by 405,936 acres not allowing for the fact that the area of these three important crops is 1,307,179 acres since 1873. Nor is this all. Live stock shows a similar condition of affairs. In 1873 there were 4,677,035 head of sheep on the farms of Great Britain; at present there are only 3,720,343, a decrease of over a million. 2,660,289 pigs were kept in 1873; at present there are only 1,113,530, a decrease of 3,546,759. Cattle, alone, show an increase of 526,127. They will be seen that with the exception of small increases in oats and cattle, there has been a decrease all round the live stock of the country. During the last few years the decrease has been more marked. In 1891 there were 3,407,277 acres devoted to the production of wheat; in 1892 this had decreased to 2,307,277 acres devoted to the production of wheat; in 1893 this had decreased to 2,307,277 acres, and now there are only 1,897,485 acres as mentioned above, a decrease in two years of 409,792, or 17.5 per cent. 2,112,793 acres were devoted to barley in 1891; in 1892 there were only 2,053,810, and now there are 2,076,097, a difference in two years of 57,983, or 2.7 per cent. Potatoes in 1891 covered 527,821 acres and in 1892 only 527,821 acres were devoted to this important crop, a decrease of 4,973 acres. Cattle, which in the whole twenty years show an increase, have decreased in the last two years by 162,145 or 3.2 per cent. Sheep and lambs have decreased in the same period by 1,430,224, or 3.1 per cent. Pigs have decreased in the same period by 70,243, or 2.6 per cent. Prices have fallen in the last two years. The farmer received for his wheat 6s per quarter; at the present time he receives only 5s 6d per quarter. In 1891 the farmer received for his wheat 6s 1d per quarter; at the present time he receives only 5s 6d per quarter. For oats he received 7s 6d per quarter then he did twenty years ago, the figures standing 26s against 18s 6d.

This is the showing made by farmers who have nearly access to the greatest market in the world for agricultural products under free trade. What reason have Canadian farmers for expecting a different result should they listen to the Grits leaders and adopt their counsel for the real or imaginary evils with which this country is afflicted? Even Sir Richard Cartwright himself can point out that such a list of decreased values as a result of the protective policy of the present Government. That the alarming condition of agriculture in Great Britain is directly due to free trade, there can be no doubt. The London Times remarks: "Whatever the British farmer feels, his old enemy, unemployment, foreign competition beats down the prices in cattle and grain. Imports of live stock, and still more imports of dressed meat, swamp the markets." From such a "showing" this country long has been delivered.—London Times.

THE TRIUMPHANT TRIUMPH.  
During this year's suffering with dyspepsia, I tried almost every known remedy but kept getting worse until I tried B. B. I had only used it three days when I felt better, then, before completely cured me.

From The Far North.  
In northern climates people are very subject to colds, but the natural remedy is also produced in the same climate. Dr. Wood's Norway Pine Syrup cures coughs, colds, hoarseness, asthma, bronchitis, and all throat and lung troubles. Price 25c, and 50c.

At Death's Door—Dyspepsia Conquered—A Great Medical Triumph.  
GENTLEMEN—My medical adviser and others told me I could not possibly live when I consumed the Norway Pine Syrup. My case was one of the worst of the kind I have ever known. I was so weak and my weight decreased from 210 to 110 lbs. All this I took for three months previous to taking the VEGETABLE DISCOVERY. I certainly saved my life. I never expected to recover when first I commenced taking it. I am not exaggerating anything, but feel bound to add to contribute the testimonial and trust it may be the means of convincing others of its merits as a certain cure for Dyspepsia.

Mark the man or woman who seeks and does nothing good in everybody; thereby goes a magnificent cure.

Nothing so suddenly obstructs the perspiration as sudden transitions from heat to cold. Heat raises the blood, quickens the circulation and increases the perspiration, but when these are suddenly checked, or what commonly goes by the name of catching colds, coughs, colds, sore throat, etc., if attended to in time are easily subdued, but if allowed to run their own course, generally prove the forerunners of more serious diseases. THE FALL is slowly but surely taking precedence over the spring as a house cleaning season, particularly in the Wall Paper line.

People recognize the fact that by papering in the fall the house offers greater attractiveness during the winter days and nights—then when Christmas comes and the holiday season is at hand, your cheerful rooms help you to welcome the loved ones who have returned from the distant West to the home.

Then, again, instead of having a regular hairy-bary, toppy hairy state of things all crowded into the annual house-cleaning of spring time, why not divide your work up some and give to the fall season part of the work which you have hitherto allowed to worry you during April, May or June.

In order to induce you to have a change and paper NOW we will give you a genuine discount of 10 per cent. off all Wall Paper purchases for the next 30 days.

## DOMINION VOTERS' LISTS.

Complaints have been made in the House of Commons that the Dominion Franchise Act is cumbersome and expensive, remarks the Ottawa Citizen. Replying to the remarks of the recent speaker, Sir John Thompson pointed out that the Dominion Government was compelled to retain the control and constitution of its own voting lists for a variety of reasons, and that the Provincial lists displayed certain classes of the Ottawa Government. The Globe, commenting upon Sir John's explanation, states that the "provincial legislation disqualifying Federal employees was not adopted by the Federal Government." This is something, but it does not remedy the evil and injustice of the system. The Dominion Government has been unwilling to take steps to remedy the evil and injustice of the system. ## EDITORIAL SERVICES.

The French herald on account of the Times first has been off by the Italian welcome to the British navy.

The largest freight steamer in the world is the Cario, which was launched from the yard of Messrs. Harland and Wolff, Queen's Island, Belfast, on the 23rd ult. Her dimensions are 500 feet in length, 60 feet in breadth, 38 feet in depth, and her tonnage is 8,315 gross, 5,335 net. Her capacity of the hold, 14,000 tons. The Cario will be fitted to accommodate 800 head of cattle on the upper and bridge decks, and will also have permanent stalls for twenty horses in the centre of the upper deck.

Some novel methods are employed by the New York newspapers in reporting the recent yacht races. One journal had a photographer following the yachts in a tug and despatching the pictures by means of carrier pigeons to the printing office. By this means illustrations of the race were sent to the public while it was in progress. Another enterprising newspaper (the Evening Telegram) employed a signal corps which acted as a telegraph service from the race course to the editors' desks. The account of the contest was written at the scene on a tin, and was signalled to shore from other tugs at intervals. Never has a yachting contest awakened such widespread interest, and this is the first time the public has been kept fully informed of its progress.

It is pleasing to note that the affairs of the Grand Trunk are looking up. Let us hope that Canada's great pioneer railway, which we are all deeply concerned, is about to be on an even keel as regards prosperity.

Mr. Gladstone is in a nice fix. He does not wish to dissolve Parliament, but his Irish supporters will probably force him to do so, and then if he will make Irish Home Rule the issue, he should be comfortably retired beneath a heap of halibut.

Don't commit suicide on account of your "Incurable" blood disease. The sensible thing for you to do is to take Ayer's Sarsaparilla. If that fails, why, then—keep on trying, and it will not fail. The trouble is, people get discouraged too soon. "Try, try, try again."

**After Effects of La Grippe.**  
PARIS, Oct. 16.—In the year 1891 Miss Ida L. Hickox, of this place, suffered from a severe attack of la grippe. Her life was saved, but as is too often the case, the victim of this dread disease was left with a host of troubles.

Ever since her illness Miss Hickox has suffered from nervous prostration and insomnia. Nothing in the way of medicine did her any good until she recently began to take Dr. Williams' Pink Pills. She just finished the second box of the pills, and the result has been a delightful surprise to herself and her friends. She is now sleeping and no longer suffers from insomnia, and she enjoys refreshing sleep. There is another case in which a lady, who had been afflicted with nervous prostration, and who had been suffering from it for several years, was cured by Dr. Williams' Pink Pills. She is now sleeping and no longer suffers from insomnia, and she enjoys refreshing sleep.

**Cheese Markets.**

MADE WAR TO SAVE ITSELF

THE EAST AFRICAN COMPANY'S

DETERMINED MOVE.

Having Spent All Its Assets, Its Satisfaction

In Having Made War To Save Itself

A Parliamentary Inquiry Asked For—

The British People Shocked.

London, Oct. 27.—The Daily Chronicle

states that a committee of inquiry

has been appointed by Parliament

in order to inquire into the conduct of

the British Chartered Company of East Africa.

The Chronicle publishes a full review of

the company's history and its finances. It

says the company has spent all its assets

and its only salvation was a raid on the

Matabele and a complete reconstruction of

the company.

Continuing, the Chronicle says: The

raid from Fort Victoria was "a desperate

move made by the company in order to

escape the consequences of its financial

collapse. It was a move which was

more easily resented by the pockets of the

taxpayers.

The Chronicle publishes a number of letters

which the British people have been com-

pelled to read in the whole Matabele-

land business.
